05 / AI-ACCESSIBLE EXPERTISE

Crafted Tools MCP.

Make your expertise, services and systems available to AI assistants through a controlled interface.

MCP Foundation

From \$2,500

A focused interface exposing a small number of clearly defined tools or capabilities.

Connected MCP

From \$5,000

Authenticated access, client-specific context, and connections to existing apps or data.

MCP Practice

From \$8,500

A digital extension of a professional practice, with established methods, agreed deliverables, and a clear handoff to a human expert when a request needs professional judgment.

Custom Agent System

From \$12,500

Multiple agents, MCP interfaces, internal systems and approval steps for more complex workflows.

Ongoing operation & development

From \$250/month, depending on hosting, monitoring, integrations, usage and continuing development. Final scope and third-party costs are agreed in the proposal.

Purchase or discuss

What happens next.

Choose a published offer when the scope fits. Discuss a project when the requirements are broader.

Purchasing from the shop

Read the offer page for deliverables, exclusions, price, and timing, then purchase online. Reviews require the material to assess. Configured systems require your business information and setup. Resources are delivered as described in the offer.

Planning a larger engagement

Custom requirements, integrations, implementation, support, and commercial terms are established before work begins. Proposal-based services are described earlier in this guide.

Costs and delivery

Ongoing support and third-party subscriptions are included only where stated. Prices and timelines shown reflect the published offers as of 4 October 2026; the offer page provides the current details.
